Item 2.02 Results of Operations and Financial Condition.

On July 23, 2015, Robert Half International Inc. issued a press release reporting earnings for the second fiscal quarter of 2015. A copy of the press release is attached hereto as Exhibit 99.1.

The foregoing information in this Current Report on Form 8-K, including exhibit 99.1 attached hereto, is being “furnished” and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and shall not be incorporated by reference in any filing under the Securities Exchange Act of 1934, as amended, or the Securities Act of 1933, as amended, except as expressly set forth by specific reference in such future filing.

Item 8.01 Other Events.

The Company’s Form 10-Q for the fiscal quarter ended March 31, 2015 and Form 10-K for the fiscal year ended December 31, 2014 contained disclosures regarding a complaint filed in California Superior Court by Plaintiff Theresa Daniels, on behalf of herself and a putative class of salaried Recruiting Managers, naming the Company as Defendant. The complaint alleged that salaried Recruiting Managers based in California had been misclassified under California law as exempt employees, and sought an unspecified amount for unpaid overtime pay alleged to be due to them had they been paid as non-exempt hourly employees, as well as statutory penalties for alleged violations of the California Labor Code arising from such alleged misclassification. The complaint also alleged a claim under California Business and Professions Code section 17200 for unfair competition. The Plaintiff also sought an unspecified amount for other damages, attorneys’ fees, and statutory penalties. On or about September 17, 2014, the Plaintiff provided written notice to the California Labor and Workforce Development Agency of her alleged claims. On October 27, 2014, the Plaintiff filed a First Amended Complaint adding a representative claim and request for penalties under the California Private Attorney General Act. On May 9, 2015, the parties entered into a settlement agreement with regard to Plaintiff’s individual claims in an amount immaterial to the Company and, on May 26, 2015, the Court dismissed the complaint. Accordingly, the Company will not make disclosures regarding this case in its Securities and Exchange Commission filings filed subsequent to its quarterly report on Form 10-Q for the quarter ended June 30, 2015.

"We reached the half-year mark with all-time high quarterly results, led by Protiviti and Robert Half Technology," said Harold M. Messmer, Jr., chairman and CEO of Robert Half. Overall, revenues grew by 9 percent over the prior year on a reported basis, or 13 percent adjusted for currency. Protiviti again reported excellent results, with currency-adjusted revenues up 23 percent from the previous year. Our staffing divisions also performed well, with revenues up 12 percent year over year adjusted for currency. As with the first quarter, growth rates were best in our U.S. operations, but we also saw nice growth internationally."

Added Messmer, "This was Robert Half's 21st straight quarter of double-digit net income and earnings per share percentage growth on a year-over-year basis. Unlevered return on equity was 36 percent."

ROBERT HALF INTERNATIONAL INC. AND SUBSIDIARIES
NON-GAAP FINANCIAL MEASURES

The financial results of Robert Half International Inc. (the “Company”) are prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and the rules of the U.S. Securities and Exchange Commission (“SEC”). To help readers understand the Company’s financial performance, the Company supplements its GAAP financial results with revenue growth rates derived from non-GAAP revenue amounts.

Variations in the Company’s financial results include the impact of changes in foreign currency exchange rates and billing days. The Company provides “same billing days and constant currency” revenue growth calculations to remove the impact of these items. These calculations show the year-over-year revenue growth rates for the Company’s lines of business on both a reported basis and also on a same-day, constant-currency basis for global, U.S. and international operations. This information is presented for each of the six most recent quarters. The Company has provided this data because management believes it better reflects the Company’s actual revenue growth rates and aids in evaluating revenue trends over time. The Company expresses year-over-year revenue changes as calculated percentages using the same number of billing days and constant currency exchange rates.

The non-GAAP financial measures provided herein may not provide information that is directly comparable to that provided by other companies in the Company’s industry, as other companies may calculate such financial results differently. The Company’s non-GAAP financial measures are not measurements of financial performance under GAAP and should not be considered as alternatives to actual revenue growth derived from revenue amounts presented in accordance with GAAP. The Company does not consider these non-GAAP financial measures to be a substitute for, or superior to, the information provided by GAAP financial results. A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures is provided on the following pages.

The non-GAAP financial measures included in the table above adjust for the following items:

Foreign Currency Translation. The “As Reported” revenue growth rates are based upon reported revenues, which include the impact of changes in foreign currency exchange rates. In order to calculate “Constant Currency” revenue growth rates, as-reported amounts are retranslated using foreign exchange rates from the prior year’s comparable period.

Billing Days. The “As Reported” revenue growth rates are based upon reported revenues. Management calculates a global, weighted-average number of billing days for each reporting period based upon input from all countries and all lines of business. In order to remove the fluctuations caused by comparable periods having different billing days, the company calculates “same billing day” revenue growth rates by dividing each comparative period’s reported revenues by the calculated number of billing days for that period, to arrive at a “per billing day” amount. The “same billing day” growth rates are then calculated based upon the “per billing day” amounts.

The term “same billing days and constant currency” means that the impact of different billing days has been removed from constant currency calculation. A reconciliation of the non-GAAP year-over-year revenue growth rates to the “As Reported” year-over-year revenue growth rates is included herein on Pages 8-10.
